

Investment Mandate

The Satrix MSCI World Equity Feeder ETF is an index tracking fund registered as a Collective Investment Scheme, and is listed on the Johannesburg Stock Exchange as an Exchange Traded Fund. The mandate of the Satrix MSCI World Equity Feeder Portfolio (Satrix WDM) is to track, as closely as possible, the value of the MSCI World Index in ZAR. The MSCI World Index measures the performance of the large- and mid-cap stocks across developed market countries which comply with MSCI's size, liquidity and free-float criteria. To replicate the index performance the Satrix MSCI World ETF invests in the iShares Core MSCI World UCITS ETF (the underlying fund). The investment objective of the underlying fund is to provide investors with a total return, taking into account both capital and income returns, which reflects the return of the MSCI World Index. Investors should note that the performance of the Satrix MSCI World ETF relative to its benchmark may be affected on a day to day basis as a result of transactions, exchange rates and differing pricing points.

Fund Information

Category	Exchange Traded Fund
Instrument Code	STXWDM
Number of Investors	13 867
Total Expense Ratio (TER)*	0.35% (incl. VAT)
Transaction Cost (TC)**	0.00%

Value Traded Month	R 270 965 616
Market Cap	R1648m

Satrix WDM portfolio securities can be bought and sold directly through stockbrokers by both retail and institutional investors.

*The Total Expense Ratio (TER) is the charges incurred by the portfolio, for the payment of services rendered in the administration of the CIS. The TER is expressed as a percentage of the daily NAV of the CIS and calculated over a period of 1 year on an annualised basis.

**The Transaction Cost (TC) is the cost incurred by the portfolio in the buying and selling of underlying assets. This is expressed as a percentage of the daily NAV of the CIS and calculated over a period of 1 year on an annualised basis.

The TER/TC is calculated from 01 April 2018 to 31 March 2019. The current TER/TC cannot be regarded as an indication of future TER and TC. A higher TER and TC does not imply a poor return nor does a low TER and TC imply a good return. Obtain the costs of an investment prior to investing by using the EAC calculator provided at www.satrix.co.za
